

How to Use the Worksheets & Handwriting Videos 🎵

Getting started is easy and fun!

Step 1: Print the Worksheets

Download and print the worksheets for your child.

Step 2: Protect & Prepare

Place each worksheet inside a plastic sheet protector.
Put the sheets into a binder or notebook to create your child's very own handwriting book!

(Bonus: Using dry-erase markers lets children practice again and again!)

Step 3: Play the Video

Start the handwriting video and turn up the sound! 🎵

Step 4: Trace Along with the Songs

As the songs play, have your child trace the letters right on the plastic sheet.
Encourage them to follow along with the rhythm and motions!

The music helps children remember proper letter formation while making learning joyful and engaging. ❤️

Fun Extension Activity: Playdough Letters Roll the Dough

Roll the playdough into long "snakes." 🐍

Measure the Dough

Place the playdough snake on the playdough measuring lines on the worksheet to see how long it should be.

Cut or Pinch to Size

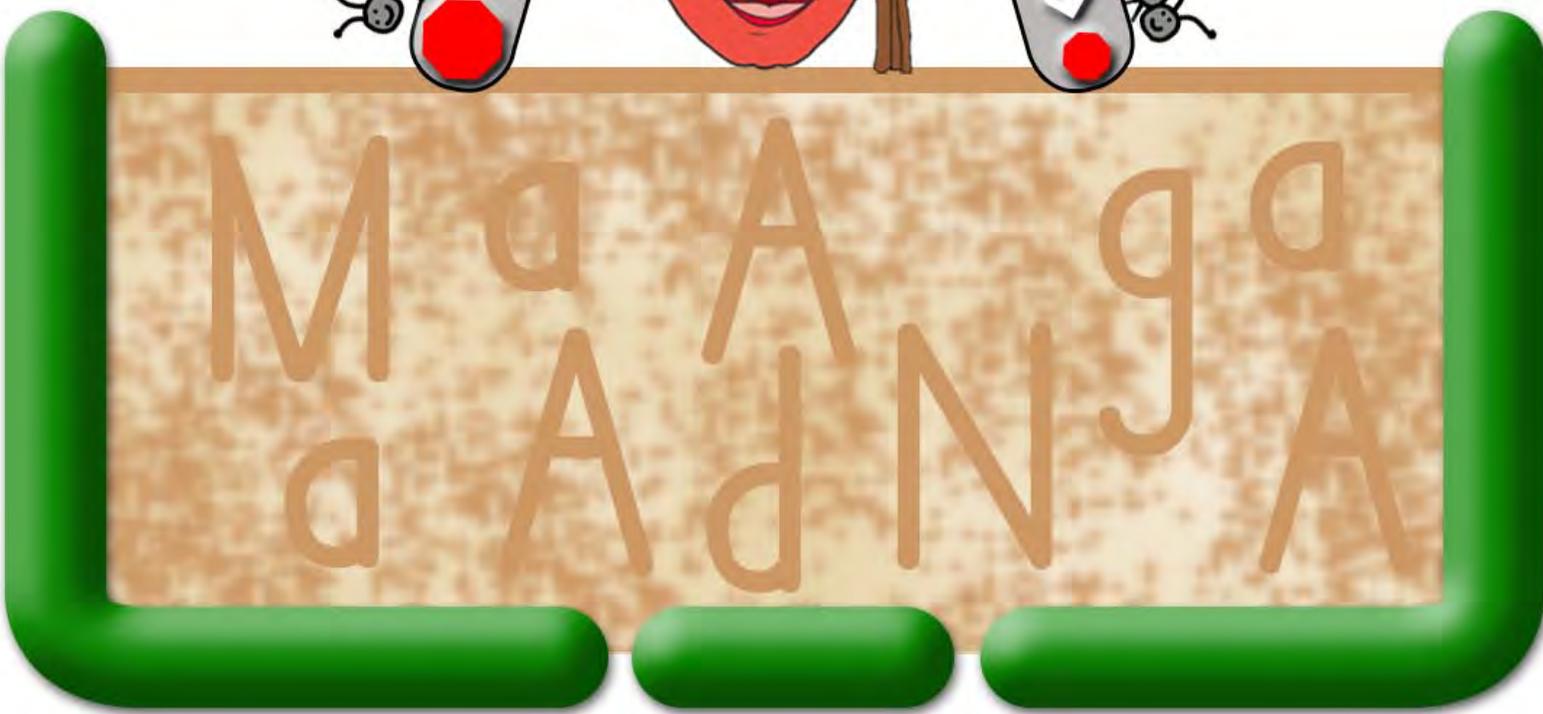

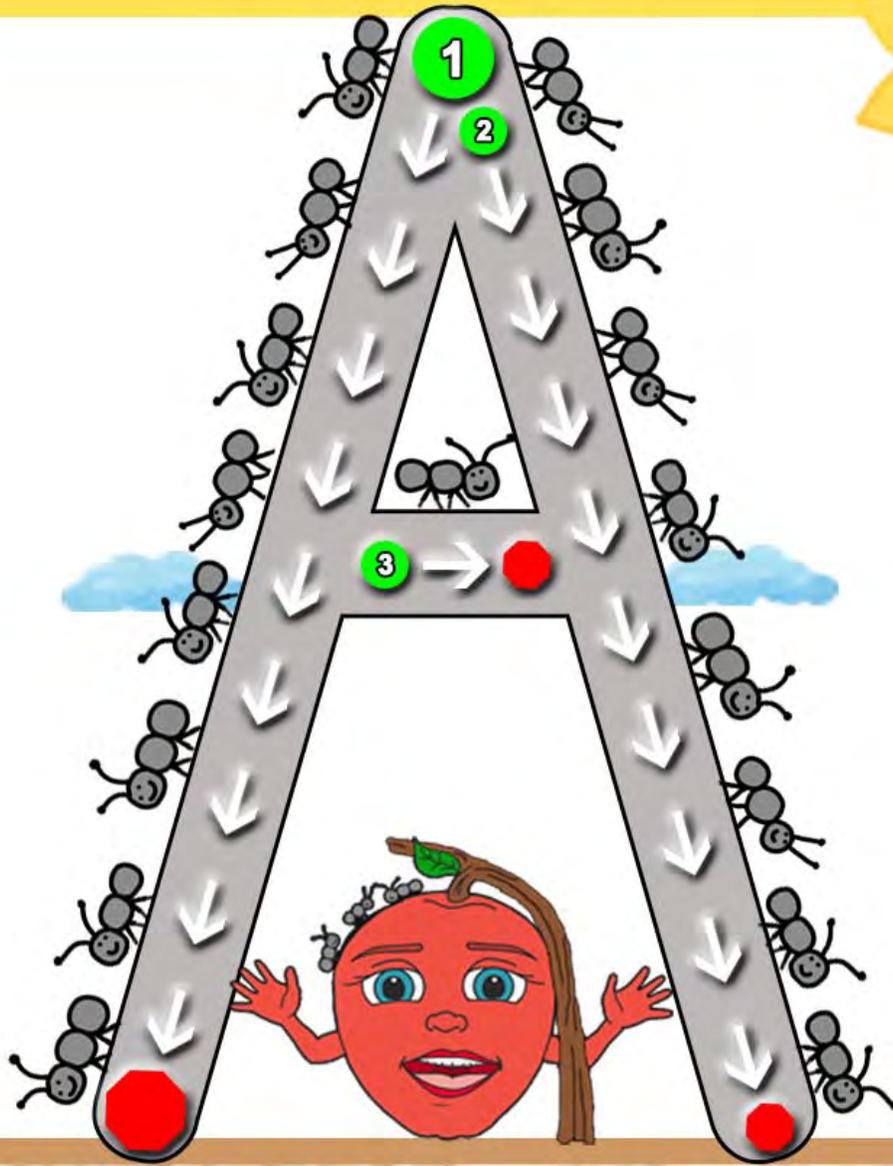

Cut or pinch the playdough so it matches the correct length.

Build the Letter

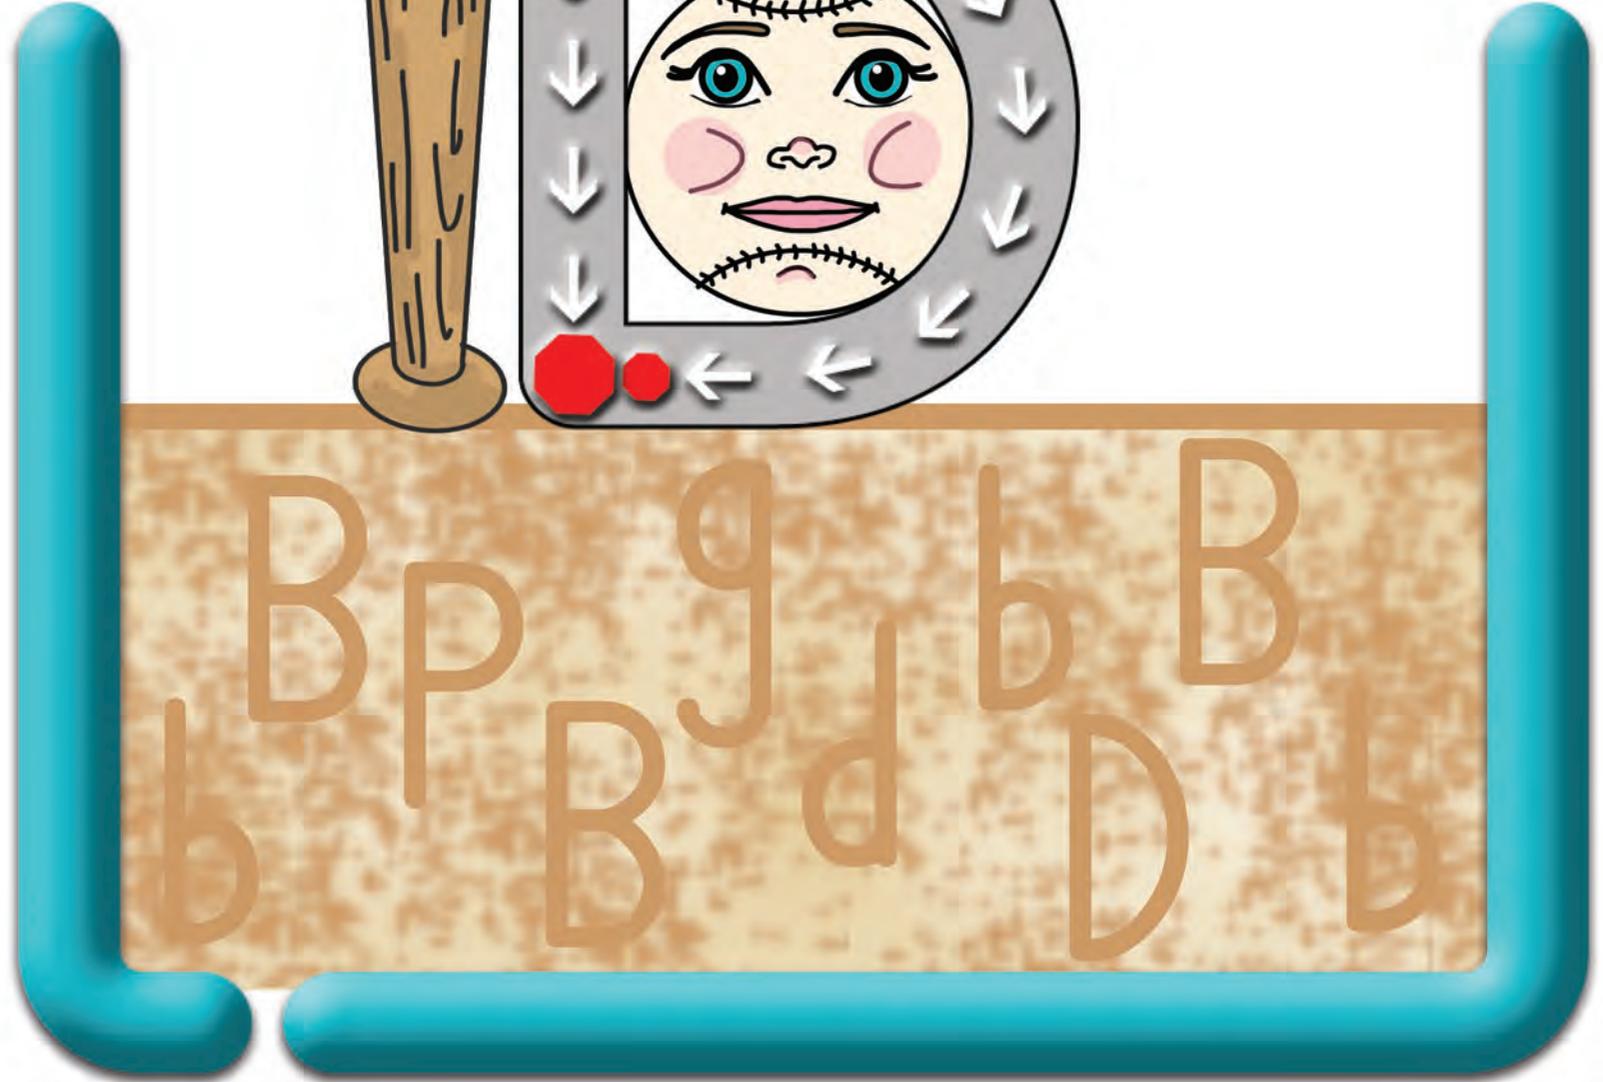

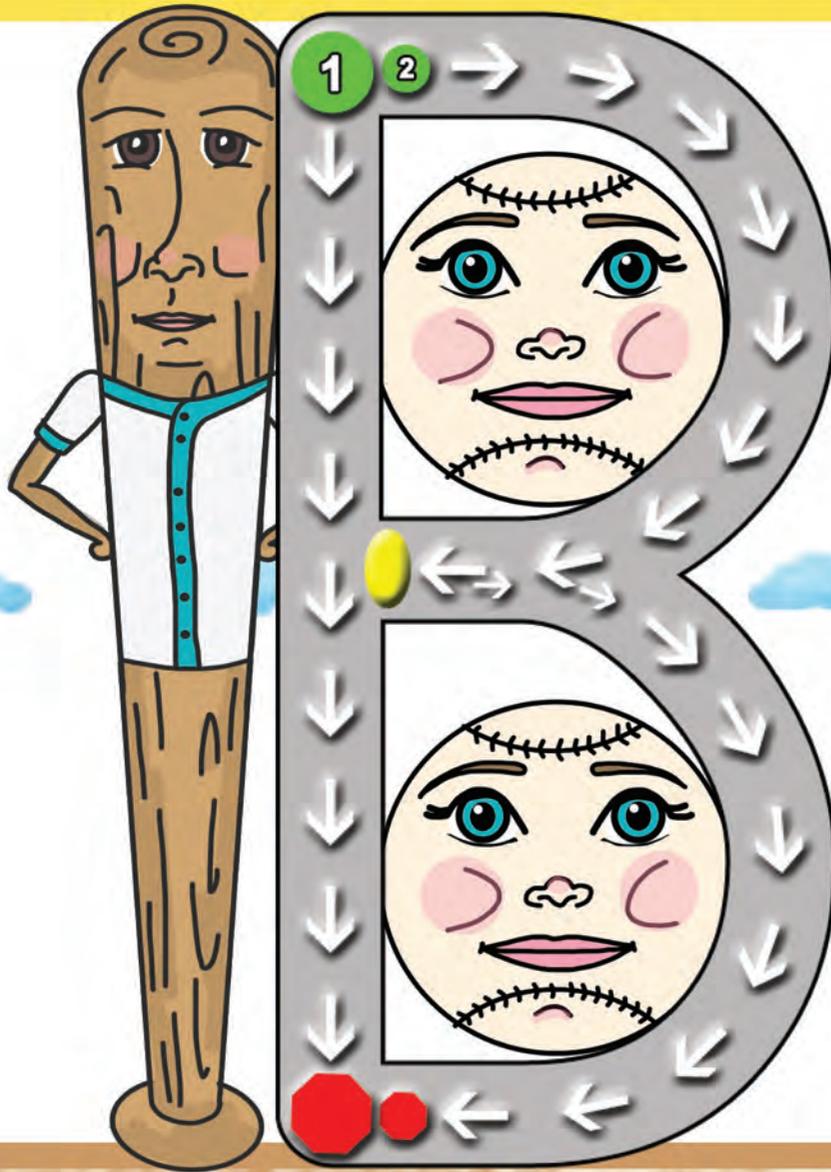

Shape the playdough pieces to form the letters right on top of the worksheet!

This hands-on activity strengthens fine motor skills, helps children feel the shape of the letters, and makes learning extra fun! 🎉
